

Workstation set up

We advise that you have all your products set up before the treatment. Keeping them in order of use will make your treatment flow really nicely. Be sure to put your products back after use so that your working area stays tidy and professional. Here are the HD Brows products we recommend for your HD BrowSculpt treatments.

1

Pristine Clean

Cleanses hands of client and stylist.

2

Squeaky Clean

Cleanses brows and removes make up.

3

Relax & Reform Duo

Two-step lamination process.

4

Brow Fixing Film

Sets brows in position and reduces development time.

5

Brow Dye

Creates a custom-blended colour for each client.

6

Brow Dye Developer

Develops your HD Brow Dye.

7

Vanish

Removes Brow Dye stains and closes pores.

8

Comfort Me

Removes wax residue and soothes freshly waxed skin.

9

Tint Lock Serum

Optimises brow health.
