

# Aftercare

Following their HD BrowSculpt treatment, the client will need to care for their brows to ensure a long lasting finish. We advise the following for clients:

- Avoid getting the brow area wet, or coming into contact with water for 24 hours.
- Avoid contact with direct sunlight, sunbeds, saunas, steam rooms and swimming pools for 48 hours.
- Avoid touching and rubbing the area.
- Avoid using fake tanning products in the area for 3 days.
- To inform you if they experience any itching, swelling, rashes.
- Use Tint Lock Serum twice a day following treatment to keep the brows conditioned.
  - Use SOS Rescue Brow Balm once to twice a week as an intense overnight mask.

From a business point of view it is also important to follow these steps:

- Give your client the aftercare card, with product recommendations.
- Be sure to recommend products to your clients, especially the Brow Miracle Daily Conditioner to ensure they are conditioning their brows.
- Advise on how and when to use the recommended product.
- Advise on when you want them to return.
- **Rebook, rebook, rebook.**
